Question NO 1,

A company establishes a deadline to respond to customer inquiries. During the month of June, an increase in customer inquiries lengthens the average response time per inquiry beyond the established deadline. To address the issue, the company decides to lengthen the deadline until the end of August. How do you satisfy this requirement?

A. Circumstance the process using the Property and Dateoption, and specify a start date and end date for the case creation date.

B. Circumstance the service level using the Template option, and create a circumstance definition with the start date and end date for the extended deadline.

C. Circumstance the property used to record the due date for addressing the inquiry, and specify a start date and end date for the extended deadline.

D. Circumstance the service level using the Property and Date option, and specify a start date and end date for the extended deadline.

Answer: C

Question NO 2,

While preparing to release an application, you notice a guardrail violation on an activity you wrote. The activity copies the content of a previous customer order to the current order. How do you address the guardrail violation?

A. Justify the warning, since an activity is required in this situation.
B. Replace the activity with a data transform to copy the content of the previous order to the current order.
C. Identify an API activity to use in place of the activity you wrote.
D. Ignore the warning if the compliance score is 90 or greater, since the application is considered ready for release.

Answer: B
